

University level **recruitment evening**

We're looking for our 2025 graduates and industrial placements; secure your next career step in one night!

5pm Friday, 11 October 2024

The evening will consist of:

- Seminar from our Director of Infrastructure Development – Matt Wheeldon
- Q&A Panel
- Speed interviews
- Technical exhibition stands
- Networking with prosecco and canapes

An amazing opportunity to see behind the doors of Wessex Water's Operations Centre, Bath. The south west's leading water supply and sewerage company.

If you're studying a STEM degree or higher – then we've probably got a role to suit you!

Q&A Panel

Allie Lee-Haxton
People Team – Group Reward Manager

In a job that combines human resources, finance, and data analysis, Allie joined YTL with work history from national and international companies. From simple peer-to-peer recognition to long service awards, reward and recognition is all about acknowledging and showing appreciation to our colleagues.

Oscar Drury *Operations Graduate – Tactical Maintenance & Investment*

Oscar graduated from The Royal Veterinary College with a degree in biological sciences and joined Wessex Water in 2023. Since then, he has been managing the delivery of improvement initiatives across the Water Recycling directorate and aims to lead the company's Innovation department.

Nicky Brennan *Group Chief Information Officer – Information Technology*

As Group CIO for the last 18 months, Nicky has been engaging with all the businesses across the YTL Group in the UK, understanding business challenges and seeking ways that technology can help solve them. Nicky is passionate about personal development, leadership and working together as a team. Nicky is also a YTL Academy panel member and part of the Disability Working Group.

James Lovell *Head of Water Recycling Avonmouth*

Starting as a Technical Administrator, James has gained experience in a range of operational disciplines. Wessex Water has supported his development including a Masters Degree in Leadership and Management. As Bioresources Director, he is proud of his career progression, and feels privileged to work with amazing people and to have had the company's unwavering support for the past 24 years.
